PW3 Bitcoin Diploma

The Pasifika Web3 Tech Hub Bitcoin Diploma Course
Cohort 1 (August 25 - November 08, 2025)

PW3 Bitcoin Diploma - (Cohort 1)

August 25 - November 08, 2025

The PW3 Bitcoin Diploma course is a Pasifika Web3 Tech Hub implementation of the My First Bitcoin, Bitcoin Diploma. PW3 is basic Bitcoin education focused on Pasifika participants. In doing so, program administration, content contextualization and timezone alignment will be achieved to maximize the learning capacities for this remote learning program.

Bitcoin has become the foundational layer upon which the Pasifika Web3 Tech Hub will establish itself. Providing educational access at no-charge to participants helps to keep our organization strengthened while sharing valuable educational resources with our Pasifika community and general public.

Upon completing Diploma course requirements, participants will receive a certificate of completion, and entry into the Pasifika Web3 Tech Hub network!

PREREQUISITES

[1] About GitHub: a web-based platform for version control and collaboration on software projects, built on top of the Git version control system. It allows developers to store their code in remote "repositories," track changes over time, and work together on projects by suggesting, reviewing, and merging code changes. While primarily used for code, it can also host and manage almost any type of digital document, serving as a social network for developers and a repository for open-source software.

Bitcoin Diploma Curriculum 2025

About My First Bitcoin

The Bitcoin Diploma is My First Bitcoin's open source basic bitcoin education program. It is 10 chapters of lessons and activities with the essential knowledge and tools to acquire the financial literacy to understand Bitcoin.

> "We're a global and grassroots movement focused on open-source Bitcoin education. Our mission? To empower individuals through financial education with a special focus on Bitcoin that's accessible, transparent, and practical. We don't tell people what to think — we help them learn how to think for themselves.
> Everything we do is open source. Everything starts with education. Bitcoin Education."
